

## Weekly Perioperative Interest Group Meeting – guide for Anaesthetic Registrars

The Perioperative Interest Group (PIG) Meeting provides a forum for discussion and collaboration on difficult and interesting cases reviewed by the Perioperative service.

The PIG meeting is conducted each week on Thursday at 1230 – 1330hr in the Surgical meeting room opposite entry to JHH Operating Theatres (and via zoom).

As part of the role of the Registrar allocated to clinic on the day of the meeting, you are expected to present a case for discussion at the PIG meeting and record the meeting notes. These meeting notes and other references will form the notes that will be distributed by the department.

This will form part of your WBA for the clinical fundamentals of Perioperative Medicine (see below).

A template for the meeting notes and a how to guide can be found on the [perioptalk.org](http://perioptalk.org) website.

Appendix four – VOP and WBA for the clinical fundamentals  
Perioperative Medicine

### Perioperative medicine

Workplace-based assessment			
Assessment tool	Introductory training	Basic training	Advanced training
Mini-CEX	1 Pre-operative airway assessment (done as part of the Preoperative assessment mini-CEX for perioperative medicine) (1)	1 Pre-assessment of a patient with multi-system disease (1)	1
<b>Total minimum WBA</b>	<b>1</b>	<b>1</b>	<b>1</b>
